Inventory Guidance Notes to Tenants

You are reminded that it is your responsibility at the beginning of the tenancy to note any specific discrepancies on the inventory that you do not agree with i.e. marks on walls, carpets, etc. If no such additional notes are made by the tenants at the start of the tenancy, the inventory will be deemed as accepted as read.

This inventory provides a fair and accurate record of the contents and condition of the contents of the property and the property's internal condition.

Disclaimer:

This inventory has been prepared by an inventory clerk who is not an expert in buildings, furnishings, decoration, woods, antiques or a qualified surveyor.

This inventory relates only to the furniture and all the landlord's equipment and contents in the property. It is no guarantee, or report on, the adequacy of, or safety of, any such equipment or contents, merely a record that such items exist in the property at the date of preparing the inventory and the superficial condition of same.

We will not take water meter readings unless the meter is clearly visible within the property or attached to an exterior wall at low/accessible level.

Windows throughout the property have not been tested for function or operation. Descriptions are purely based on the superficial appearance of windows, frames and locks. No Letting Go can accept no liability arising from any failure of the windows or parts thereof to function properly at all.

Furniture & Furnishings (Fire) (Safety) Regulations 1988 – (1993)

The fire and safety regulation regarding furnishing, gas, electrical and similar services are ultimately the responsibility

of the instructing principal. Where the Inventory notes "Fire Regulation Label Attached", this should not be interpreted

to mean the item complies with the "furniture and furnishings (fire) (safety) (amendments) 1993". It is a record that the item had a label as described or similar to that detailed in the "guide" published by the Department of Trade and Industry January 1997 (or subsequent date). It is not a statement that the item can be considered to comply with the Regulations.

Using The Inventory

All static, loose or movable items in this inventory are listed as far as possible from left to right starting at the main door. Multiple items may be grouped together and may require locating.

Light fittings are assumed to come complete with a serviceable bulb(s) unless stated.

Settling cracks to walls and ceilings are accepted and will not be mentioned unless necessary.

All measurements are in centimetres/metres and are approximate to within 1 centimetre unless stated otherwise.

All items listed are in a good clean condition unless otherwise stated.
